One of the most special treks of my life

Review of: [ChaloHoppo to Khonoma, Dzulekie and Dzukou Valley](#)

We visited Dzukou Valley, Nagaland, with Chalohoppo. It was a weekend trip (3 days) and we had an amazing time. Vikho and Atho were excellent guides. First we spent a day in Kohima, where we visited the World War 2 memorial, the local market and a museum. The camping site where we spent the night before going up to Dzukou was beautiful, with comfortable tents and an amazing view of the rice fields below. In the evening we sat by a campfire and Vikho told us a lot of interesting stories about Nagaland. Vikho and Atho took care of everything and throughout the 3 days they really went out of their way to make sure that everyone was as comfortable as possible. It was an amazing trip, and I'm glad to have experienced it with Chalohoppo!

FAQ's

Q. I have heard so much about Dzukou Valley, where is it?

A: Yes, Dzukou has all the reasons to be talked about. The valley is shared by Nagaland and Manipur, though the majority of the valley lies in Manipur. The known treks are initiated through Nagaland.

Q. How do I get the ILP?

A: Relax! We got your back for that. We will get your Inner Line Permit made. It is included in the package.

Q. I don't know Nagamese, will I have to be stick to sign language in Nagaland?

A: No sign language guys, although the language used is Angami but you can converse with the locals in English. Almost everyone knows English and a few might also surprise with Hindi in an Angami accent. For starters '*Keneka Ase?*' means *How are you?* in Nagamese and '*NMeza!*' is *Thank You!*

Q. I am a solo traveller, can I come on this trip?

A: A most definite yes, as long as you are okay travelling in a mixed group of other solo travellers or small group of friends.

FAQ's

Q. So I am in Kohima, where do I meet ChaloHoppo Guy?

A: Once you are in Kohima head to Kohima War Cemetery. The ChaloHoppo Guy will meet you there at 11 am.

Q. Is it safe to travel to Northeast India? I have been warned about Naxalites, ULFA and other terrorist groups.

A: The sources of such warnings should be checked and speaking from the perspective of locals living in the region we can say that though some parts of Northeast India do have cases of groups clashing against government forces from time to time, it doesn't affect a tourist as long as the route is chosen wisely and hours of commute are decided smartly, much like travelling in any other part of the world. If you have seen warnings in the advisory pages of governments, then we would like to remind you that governments (of different countries) will always take precaution and not be in sync with the real situation. Northeast India is absolutely safe with warm and welcoming locals. You should have no issues even going to the most interior places. As with any other tribal dominated region, respect the local culture and don't hurt their sentiments, and you will have a great time in a beautiful place. Because so less is known about the region in general, it may be a wise idea to get in touch with some travel experts before you plan your trip.

FAQ's

Q. I am a vegetarian, I hear that people only consume meat there. How will I manage?

A: Though vegetarians may not have the luxury of tasting all the local foods as these are mostly meat-based. You have nothing to worry you will get all kinds of basic sabji, dal, rice, roti, papad, salad etc. Your cravings for butter paneer or mushroom Manchurian may not be fully satisfied but you will do just fine. You must ensure that you are trying out all the available seasonal fruits and local wild leaves.

Q. What type of Bag should I carry?

A: A 60 litre backpack would be handy.

Q. Can I book extra nights of hotel accommodation before or after my tour?

A: Extra nights can be booked based on availability. You can also visit our [Custom trip section](#) to plan a different trip.
